

Mgr. Petr Šimůnek

I am fighting for 674 years of hard work of students

About the candidate

I am politically active in Hořice - the birthplace of [Svarta jump](#). In the municipal elections, our democratic party got f*cked - at that moment I understood that a real program is not necessary. Wishlist my games on Steam: [Traildown: Downhill Mountain Biking](#), [Engine Evolution 2023](#).

Priorities

Student mental health is the number 0 priority for me.

Figure 2: Politics is the art of compromise, but not at all cost.

Programme

- 1) Rotating the dormitories of November 17th to the east so that they could be declared a church and reach state subsidies, thus improving the students' standard of living.
- 2) I will fight against being cooked in canteen foods 1, 2, 3, 4, and 6. Colleges have taken away our grade 5. And now they deny us this traditional student number 5 in the canteens! This is an absolutely unacceptable restriction of student freedoms!

- 3) A resting goose in all MFF buildings, which students will be able to cuddle with at any time.

We've introduced Wellness **Geese** to campus to help students de-stress during the exam period.

I have personality support

„I vote for Petr because I have to. But if I could choose, I would still choose him.“

- Mgr. Anonym ([Unisave](#) CEO)

„I don't know a better candidate than Petr. The truth remains that I don't know any other candidate.“

- Mgr. Jiří Klepl (self-proclaimed genius)

„I got to know Petr Šimůnek as a decent, intelligent and extremely hardworking young man. This is how I see our future.“

- Ing. Jaroslav Winter (respected Hořice politician)

Invitation to vote

If you have the same opinion as me, please come and support me in the elections! If you have a different opinion, I would ask you not to vote.

Yours Mgr. Petr Šimůnek
