"You can do it!"

Science project for young makers

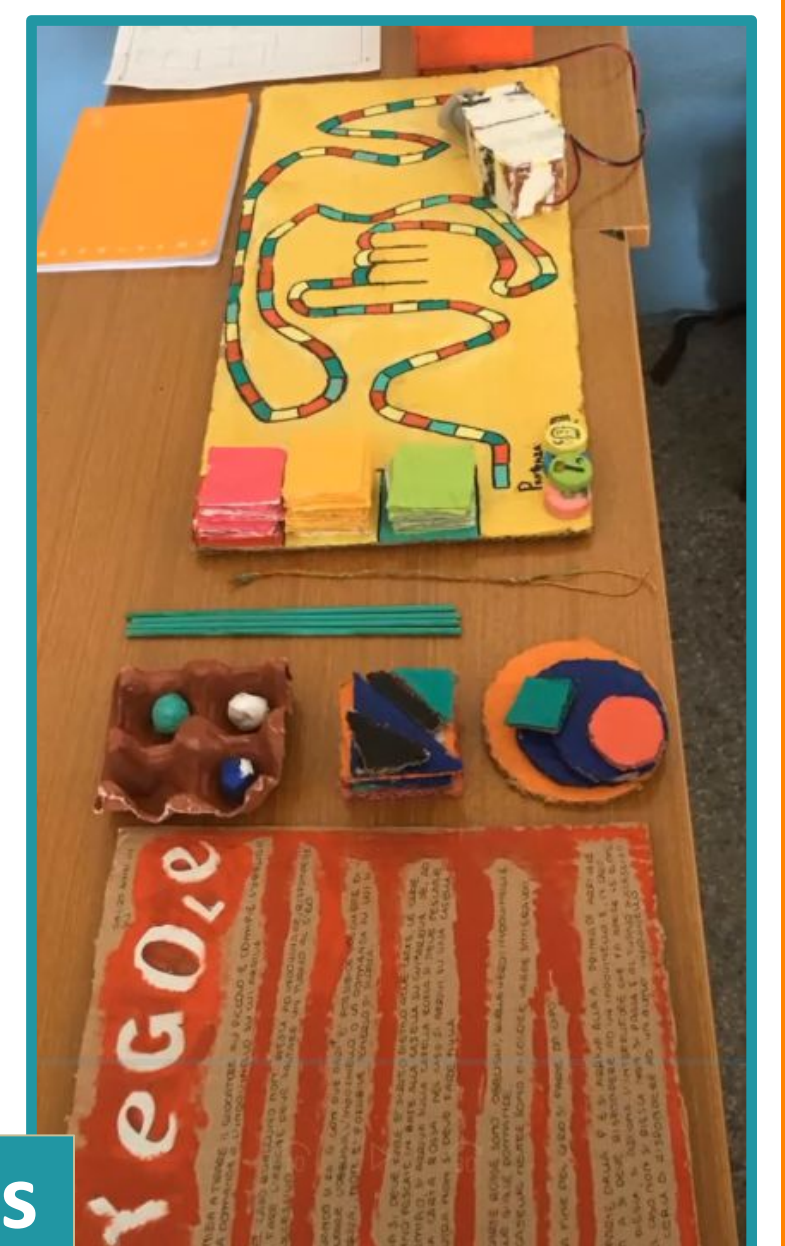

- ✓ STEAM competition for middle school **students** (12-13 years)
- ✓ Students, split in teams, have to make a **working toy** by using specific material (kit)
- ✓ Teams have to complete the project in **12-15 hours**

Kit

Toys

The winner is ...

- ✓ Projects are judged by a special jury composed of teachers and industry professionals
- ✓ The "You can do it!" project is fully organized by **high school students** (16-18 years)

Carried out by ...

Join the project!

The project is available in many European countries associated with the similar competition "Eureka! It works!" for primary school
